PROFESSIONAL SUMMARY

AI Automation Engineer and Full Stack Developer with 2+ years of freelance experience plus a 6-month software development internship. Builds production-ready web applications, AI-powered automations, CRM integrations, voice/lead workflows, and business systems using React, Next.js, Node.js, Python, FastAPI, OpenAI APIs, and n8n. Focused on reducing manual operations and shipping reliable software for real business use cases.

CORE SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React, Next.js, Vue.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express, FastAPI, Django, Flask, REST APIs, WebSockets, JWT

Databases: PostgreSQL, MongoDB, MySQL, Firebase, Supabase

AI, ML & Deep Learning: Machine Learning, Deep Learning, Agentic AI, AI Agents, RAG, Prompt Engineering, Vector Databases

AI & Automation: OpenAI API, Claude API, Gemini API, n8n, Zapier, Make, Workflow Automation, CRM Integration, Zoho CRM, Zoho Recruit, Zoho Flow

DevOps & Tools: Git, Docker, Vercel, Render, Railway, Stripe, Razorpay

WORK EXPERIENCE

Software Developer Intern

Jan - Jun 2026

Right Advisors | Delhi, India

- Contributed full-stack features across React, Node.js, Express, and MongoDB applications, improving internal product usability and delivery speed.
- Built reusable API integrations and backend workflows for client onboarding, data handling, and business operations.
- Implemented responsive interface components with clean state management, form handling, authentication flows, and production-oriented UI behavior.
- Collaborated on debugging, testing, and deployment preparation to keep web features reliable across common user flows.

Freelance AI Automation & Full Stack Developer

2022 - Present

Self-Employed | Remote

- Delivered 15+ client projects across healthcare, education, recruitment, SaaS, e-commerce, and service businesses.
- Developed AI-powered workflow automations using n8n, REST APIs, CRM integrations, and LLM APIs to reduce repetitive manual operations.
- Built secure REST APIs, authentication systems, admin dashboards, payment integrations, and database-backed applications with React, Next.js, Node.js, FastAPI, PostgreSQL, and MongoDB.
- Integrated Stripe, Razorpay, WhatsApp/email workflows, and third-party services while managing projects from discovery through deployment.

SELECTED PROJECTS

AI Voice Calling & Lead Qualification Agent

OpenAI API | n8n | Webhooks | CRM APIs

Designed an AI-assisted calling workflow that captures caller intent, qualifies leads, structures notes, and pushes follow-up-ready records into CRM pipelines.

CRM & Recruitment Automation System

Zoho CRM | Zoho Recruit | Zoho Flow | REST APIs

Automated candidate and lead movement across Zoho tools, including assignment logic, status updates, follow-up triggers, and internal reporting flows.

E-Commerce Platform

Next.js | Node.js | MongoDB | Stripe

Built a production-style storefront with authentication, cart and checkout flows, payment integration, admin product controls, and database-backed order handling.

Real-Time Code Collaboration App

React | MongoDB | WebSockets

Developed a collaborative editor with live room sessions, real-time WebSocket sync, syntax highlighting, and shared editing behavior for multiple users.

EDUCATION & ACHIEVEMENTS

Bachelor of Computer Applications - Currently enrolled

Grade 12 - PCM, CBSE - Modern Vidya Niketan, Faridabad

Delivered 15+ client projects | Finalist, National Junior Coding Championship 2024 | Winner, School Hackathon 2023
