CORE SKILLS

Frontend

React

Next.js

Vue.js

TypeScript

JavaScript

Tailwind CSS

HTML5

Bootstrap

Backend

Node.js

Express

NestJS

FastAPI

Django

Flask

REST APIs

GraphQL

WebSockets

JWT

Data & Tools

PostgreSQL

MongoDB

MySQL

Firebase

Supabase

Git

Stripe

Razorpay

EDUCATION

Bachelor of Computer Applications

Currently enrolled

Grade 12 - PCM, CBSE

Modern Vidya Niketan, Faridabad

ACHIEVEMENTS

- Finalist, National Junior Coding Championship 2024
- Winner, School Hackathon 2023
- Solved 300+ programming problems on HackerRank

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of freelance experience and a 6-month software development internship, building responsive web applications, APIs, dashboards, and database-backed products. Strong in React, Next.js, Node.js, Express, FastAPI, MongoDB, and PostgreSQL, with a practical record of delivering client-ready features across e-commerce, SaaS, and service business projects.

WORK EXPERIENCE

Software Developer Intern

Jan - Jun 2026

Right Advisors | Delhi, India

- Contributed full-stack features across React, Node.js, Express, and MongoDB applications, improving internal product usability and delivery speed.
- Built reusable API integrations and backend workflows to support client onboarding, data handling, and business operations.
- Implemented responsive interface components with clean state management, form handling, and production-oriented UI behavior.
- Collaborated on debugging, testing, and deployment preparation to keep web features reliable across common user flows.

Freelance Full Stack Developer

2022 - Present

Self-Employed | Remote

- Delivered 15+ web projects for e-commerce, SaaS, and service businesses, covering frontend development, backend APIs, databases, and deployment support.
- Developed modern applications with React, Next.js, FastAPI, Node.js, PostgreSQL, and MongoDB, aligning implementation with client goals and timelines.
- Integrated payment gateways including Stripe and Razorpay, plus third-party APIs for authentication, data exchange, and business workflows.
- Created admin dashboards, product flows, and responsive landing/application pages optimized for usability, performance, and maintainability.

KEY PROJECTS

E-Commerce Platform

Next.js | Node.js | Stripe

Built a full-featured online store with cart flow, authentication, admin dashboard, and payment gateway integration.

Real-Time Code Collaboration App

React | MongoDB | WebSockets

Developed a multi-user code editor with live session sync, syntax highlighting, and collaborative editing support.

Business Web Applications

React | FastAPI | PostgreSQL

Delivered database-backed web apps and dashboards for client workflows, reporting, and operational data management.

Developer Portfolio

Next.js | Tailwind CSS | Vercel

Created a responsive portfolio experience to present selected projects, technical capabilities, and contact pathways.
